

E-CONTRACTOR ACADEMY

Bay Area Fall 2024

E-Contractor Academy is a FREE weekly workshop series building technical, financial and operational capacity with small minority/BIPOC, women, veteran-owned and/or disadvantaged (MWVDBE) construction businesses to successfully do business in climate-critical decarbonization fields such as building electrification, energy efficiency and renewable energy.

Technical Support
Learn essentials and latest information from construction industry subject matter experts.

Operational Support
Support on meeting your business goals with access to no cost professional services for eligible participants.

Connection to Clean Energy Projects –
Warm introductions to contractors/primes seeking MWVDBEs and bid opportunities from ECC's network.

TUESDAYS
3 - 6:30 PM
OCT 22 - NOV 12

San José Environmental Innovation Center
1608 Las Plumas Ave
San Jose, 95133

*Free Light Meal Provided

TOPICS

- Intro to Building Electrification & Best Practices
- Clean Energy in the Field
- Electrification Codes and Case Studies
- Growing & Managing Your Business
- High Road Contracting

WHO SHOULD ATTEND?

Priority is given to:

- Licensed contractors in or seeking to expand into electrical, plumbing, and HVAC trades
- MWVDBEs (certification not required)
- Business revenue \$25K - \$3M
- Project scopes up to \$1M
- Owners seeking to grow their residential decarb business!

The Academy helped creating valuable contacts with industry stakeholders. Very good review of current needs from the building/energy industry.

- Alain Descoins,
Cantech Tools LLC
Academy Participant
